

Welcome to Aquarius Online

You are invited to join this website community and participate in planning and celebrating Aquarius 08. The website provides a meeting place and forum for collaborating and sharing information about Aquarius activities.

It's early days for the site so your patience is requested and your enthusiasm encouraged. As in all community activities, we operate in a voluntary capacity and always welcome new and active members.

This website functions as a communications vehicle for management, planning and promotion of Aquarius 08 events and beyond. We utilize cutting edge interactive technology that allows members to easily upload words, images and other media.

The site is a multi-purpose operation to tell the Aquarius story, gather Aquarius archive material, collect entries and presentations for our inaugural Aquarius Awards and co-ordinate and promote Aquarius 08 events and activities.
